The Federal Marriage Amendment

The Federal Marriage Amendment would: 1. Prevent the U.S. Congress and state legislatures from creating same-sex marriage.
2. Prevent federal and state courts from imposing same-sex marriages, civil unions or domestic partnerships as they did in Massachusetts.
3. Prevent states from being forced to recognize domestic partnerships or civil unions from another state.

We the undersigned Americans support the Federal Marriage Amendment to protect marriage as being between one man and one woman.
